Mr. Daron Haddock Permit Supervisor

Re: Wildcat Loadout C/007/033, Stockpile Area Amendment

Dear Mr. Haddock:

Andalex Resources, Inc. is herein requesting approval of a 0.92 acre coal stockpile expansion area at the Wildcat Loadout.

Stockpile areas are presently reaching maximum capacity, and there is an immediate need for additional storage area. This proposal will provide some relief by providing additional space, and allowing for some reduction in pile height, with minimal additional disturbance.

The area in question has been reviewed by DOGM staff, and results of their field visit and recommendations are discussed in the 2/28/03 file memo from Pricilla Burton.

The proposed expansion area is within the present bonded area, in ASCA 3 and a small portion of ASCA 4. Runoff from the new disturbed area will be directed to existing Sediment Pond B. Sizing calculations show Pond B to be adequate to contain the additional runoff. The addition of this small area should not require a modification to the existing air quality permit, since the Wildcat Loadout is still well below the approved maximums for shipping and emissions.

Based on the Soil Survey and recommendations by Mt. Nebo Scientific, Inc., (Appendix D) it is proposed to scrape off the upper 2" - 6" of the surface, as needed, to remove the coal fines. This material will be placed in the refuse pile. The remaining soil will then be salvaged to a depth of 24" and placed on the existing Topsoil Pile "A", as shown on Plate 1. This will provide approximately

RECEIVED

MAY 12 2003

DIV. OF OIL, GAS & MINING

3000 cubic yards of topsoil, or enough for nearly 4 acres, for final reclamation.

It is our hope this proposal will meet with your approval. A more substantial expansion will be proposed in the very near future; however, such expansion would be compatible with this proposal. Approval of this smaller proposal will provide some relief while the need for a larger expansion as well as required plans are evaluated.

Three copies of revised pages and plates, as well as a C1/C2 Form are enclosed. If you have any questions, or need additional information, please let me know.

Sincerely,

A handwritten signature in dark ink, appearing to read "Michael W. Glasson", with a stylized, flowing script.

# Application for Permit Processing

## Detailed Schedule of Changes to the MRP

Title of Application:

Stockpile Area Expansion.

Permit Number: C/007/033

Mine: Wildcat Loadout

Permittee: Andalex Resources, Inc.

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit application. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the existing mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**
